ACCURATE HOME CARE ACQUIRES A PLUS HOME CARE

Acquisition allows Minnesota-based home care provider to expand its Midwest service area into Illinois and Iowa

ELK RIVER, Minn. (Oct. 21, 2010) – Accurate Home Care is pleased to announce the acquisition of A Plus Home Health Care, a Medicare-certified agency providing home care services to clients in Illinois and Iowa. The acquisition, finalized Oct. 1, gives Minnesota-based Accurate a true Midwest presence with expanded pediatric and adult service capabilities across the region.

“Completing an acquisition was a goal for Accurate this year, not only to better service our clients’ needs, but also to expand our service reach and depth,” said Amy Nelson, founder and president of Accurate Home Care. “A Plus Home Health Care presented the perfect fit because it is Medicare-certified and focused on pediatric care in a geographical region that is appropriate for our needs.”

Accurate Home Care, based in Elk River, serves approximately 500 clients across the state of Minnesota, specializing in complex care, chronic illnesses and pediatric care. With the addition of A Plus, which serves pediatric clients from locations in Moline and Peoria, Ill., the geographic reach of Accurate’s services will expand across the Midwest region. Additionally, the company will benefit from becoming a Medicare-certified company in Illinois and Iowa as its own certification is finalized in the state of Minnesota. This will allow Accurate to provide Medicare-reimbursed private duty nursing, skilled visits and therapy visits to pediatric clients in Illinois and Iowa, and eventually in Minnesota.

The acquisition of A Plus also provides Accurate with more resources to invest in education programs that enhance both employee and client experiences, such as the opening of a new training facility and the hire of an education director that Accurate announced in May of this year.

“We’ve consistently demonstrated our commitment to investing in education and programs that support a great client and employee experience,” said Peter A. Davis, chief executive officer of Accurate Home Care.

“The acquisition of A Plus aligns with that commitment, as it allows us to spread the costs of those critical investments to better serve our clients and their families.”

With the completion of the acquisition, field staff and office staff of A Plus Home Health Care will largely remain in place, while A Plus founder George Bialecki, Jr. will join the Accurate Home Care board of directors.
